

To the beneficiaries of the  
General Pension Scheme of the SAirGroup

Zurich Airport, June 2010

## Summary report on the 2009 financial year

Dear member

### Summary report

Please find enclosed the summary report on the 2009 financial year for the General Pension Scheme of the SAirGroup (GPS). If you are interested in receiving the complete annual report, please contact us in writing and we will be pleased to provide you with a copy.

The partial liquidation can now finally be completed. The pensioners' freely disposable funds are not be paid out individually but will instead be retained by the GPS, serving as a long-term guarantee for pensions and as fluctuation reserves for investments.

It is important to the Board of Trustees, however, that the pensioners are nevertheless able to participate in the partial liquidation in some way. For this reason it decided at its meeting on 27 May 2010 to make a **special payment** equalling twice the monthly old-age, disability, widow's and widower's pension payments made in July 2010. Some temporary pensions and lump sum payments are excluded. **The payment will be made together with the monthly pension payment in August 2010.**

Sincerely

Bernhard Keller  
President of the Board of Trustees

Hans-Ulrich Schneider  
Managing Director
